3. On-page

H1	Procurement Guided Buying & AI-Driven Intake
Meta title	Procurement Guided Buying Made Easy with AI Intake | JAGGAER (60 chars)
Meta description	Procurement guided buying and AI intake turn plain-language requests into compliant purchases and faster approvals. Read the guide today. (137 chars)

Additional notes

• Add an industry section as a list: one H3 per industry with 2-3 sentences below each, in this order: healthcare, higher education, nonprofit, state and local government.
• Use "procurement guided buying" in the intro and "guided procurement (system)" in one H2.
• Make "What is intake to procure?" an H2 and expand it; avoid repeating the intake and orchestration post.
• Existing links to sourcing, contracting, supplier management, procure-to-pay and JAI can stay.
