Meta title	Procure to Pay Process: Automate Every Step with a P2P System (61 chars · 582 px)
Meta description	Learn the procure to pay process step by step, and how a P2P system automation cut manual work and speed up approvals. (128 chars · 838 px)

Additional notes

Why refresh. The page earns 61,677 impressions but only 28 clicks. Many queries sit at positions 8 to 12 with almost no clicks (for example "procure to pay system" at 9.7 and "procure to pay workflow" at 10.4), so the snippet and the depth of the page are the problem, not only rankings. The current title and H1 do not match, and the page is short, at roughly 1,300 words by my read.

Claims to confirm. Any JAGGAER capability described in the automation and AI section must be confirmed with Product Marketing.
