Additional notes

Why refresh, not a new post. The page already ranks at 17.8 with 1,794 impressions and the best CTR we have seen on these pages (0.40%), and it carries authority from 2021. A second page targeting "contract management" would compete with it. The article already covers the definition, ten lifecycle stages, software, ten benefits and five ways to get more value, so the refresh restructures and updates it instead of starting over. The goal under the roadmap is to move it into the top 10 first, then toward the top 3.

Claims to confirm. Any JAGGAER AI or automation capability described must be confirmed with Product Marketing, and the 2027 context needs sources.
